EXECUTIVE PROFILE

Interim/Fractional CFO and founder-operator with 25+ years of experience scaling businesses from startup to \$30M+ ARR and more than \$200M in cumulative revenue. Specialize in stepping into complex, high-growth, turnaround, and founder-led environments to create financial visibility, stabilize cash flow, strengthen reporting and controls, and convert financial information into executive action. Proven record across FP&A, 13-week cash forecasting, capital planning, lender relations, construction/job-cost accounting, margin improvement, and finance-function buildout. Most recently delivered a transformation from a \$242K net loss to \$2.34M net profit while revenue grew from \$5.1M to \$9.2M. Technology-forward executive applying AI systems, automation, and modern technology to finance, operations, and executive decision-making. MIT Sloan Executive Education; Certified Management Accountant (CMA) Candidate.

PROFESSIONAL EXPERIENCE

Principal | Fractional CEO/CFO

KSIG Advisors | Greater Seattle Area / Remote

Mar 2026 – Present

Independent fractional executive and strategic finance practice serving founder-led, PE-backed, and growth-stage companies navigating growth, turnaround, capital needs, operational complexity, and ownership transition.

- Provide hands-on fractional CFO leadership across FP&A, 13-week cash forecasting, financial reporting, lender and investor readiness, capital planning, board reporting, finance systems, margin improvement, and executive decision support.
- Support finance-function buildouts, financial transformation, restructuring, scaling, and exit readiness with an emphasis on durable financial infrastructure and decision-quality reporting.
- Coordinate specialist resources across M&A, legal, capital, accounting, technology, and operations when engagements require broader support.

Chief Financial Officer

Broadband Development Group LTD (BDG) | PNW | Multi-State

Jun 2025 – Jul 2026

Multi-state turnkey engineering and construction provider of backbone, middle mile, and FTTH fiber/broadband infrastructure, including BEAD and AI infrastructure projects across WA, OR, ID, MT, AZ, ND, MN, WI, and IL.

- Delivered the strongest single-year financial turnaround and highest profitability in company history: \$242K net loss → \$2.34M net profit.
- Drove revenue growth of 81% (\$5.1M → \$9.2M) while improving gross margin by 11.8 percentage points (60.6% → 72.4%).
- Identified and executed \$435K+ in total expense reductions, including reducing travel expenditure from \$600K to \$267K in a single year.
- Built finance infrastructure from the ground up: established FP&A, accounting, treasury, and financial reporting systems for a complex multi-state, multi-project construction environment.
- Built executive dashboards, 13-week cash forecasting, liquidity planning, and KPI reporting to support ownership decisions, payroll continuity, lender relationships, and capital planning.
- Managed BEAD federal funding compliance, financial reporting requirements, and government program financial administration.
- Delivered direct board-level financial analysis and strategic recommendations to ownership team.

Principal | AI Systems and Automation Architect

BlackBoxx.ai | Greater Seattle Area / Remote

Oct 2023 – Present

Independent AI Systems Lab focused on practical AI agents, automation, orchestration, and integration across business workflows.

- Design and pressure-test multi-agent systems, AI/tool integration, workflow automation, and AI-enabled operating systems.
- Apply emerging AI capabilities to finance, research, executive decision support, operations, and business process automation.

Founder | CEO | CFO

Nils Bernard | Greater Seattle Area & Central Washington

Apr 2021 – Jan 2025

Premium custom home builder serving high-end residential markets across Greater Seattle Area and Central Washington.

- Founded and led a premium custom-home building company while serving as CEO/CFO across finance, operations, business development, and subcontractor management.
- Managed construction job costing, project P&L, WIP accounting, cash flow, internal controls, and reporting across concurrent high-value residential projects.
- Applied 15+ years of AEC and construction-finance experience to margin management, cost control, capital planning, and project delivery.

Founder | CEO | CFO | Head of Strategy, Innovation & Technology

Macadam Floor & Design | Greater Seattle Area, WA

Jul 2007 – Nov 2020

Washington State's premier professional flooring and design company with multiple design center locations across the Greater Seattle Area. Clients included Fortune 500 companies across the Pacific Northwest.

- Scaled from \$0 to \$30M+ ARR and \$200M+ cumulative revenue, building a 200+ employee, multi-location enterprise serving approximately 10,000 homes across Washington and Oregon.
- Served as CFO across all financial functions: AR/AP, month/year-end close, complex high-volume job costing and inventory accounting on a \$30M ARR business, bank and investor relations, CPA coordination, tax, and legal compliance.
- Raised growth capital and negotiated lines of credit and all financing instruments to fund rapid expansion.
- Evaluated and strategically declined acquisition offers from two private equity firms; the company subsequently achieved its highest revenue performance.
- Negotiated all major vendor and customer contracts; owned all pricing, cost, and margin decisions across a high-volume multi-location professional services operation.

Co-Founder | Head of Strategy, Innovation & Technology

Chase International (DBA Chase Wholesale Floors) | OR/WA

Dec 2000 – Dec 2007

Co-founded and scaled a flooring/design business into a national buying group with manufacturer contracts, private-label products, and an independent sales network.

- Built national manufacturer relationships and purchasing programs enabling independent stores to compete at enterprise pricing levels.
- Led enterprise strategy, finance, business development, sales, operations, branding, and technology implementation.

Manager, Nike Retail Special Orders | Corporate IT Super User

Nike, Inc. | World Headquarters, Beaverton, OR

Jan 1998 – Dec 2000

Promoted from NikeTown Portland to Nike World Headquarters at age 22 to create, centralize, and lead Nike Retail Special Orders for all U.S. Nike Retail, Outlet, and Employee Stores.

- Built the national operating model, workflows, and systems for sourcing products unavailable through individual stores; traveled to NikeTown locations and new-store openings to train teams and support national rollout.
- Helped develop Nike's early internet-based purchasing capability and was designated a rare Corporate IT "Super User," working between IT, business leadership, developers, retail operations, employees, and consumers during new-system implementations.
